When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Wild plots and quicksilver wit characterize the plays of Georges Feydeau. Called the greatest master of French comedy since Moliere by admirers such as Kenneth Tynan, Feydeau reflects the lusty tradition of the French bedroom farce as well as the tough exorbitant humor later to find full expression in the theater of the absurd. The plays offered in this volume represent the major stages of Feydeau's career. The one-act *Woood and Viewed* was his first comedy, written in 1880. On the *Marry-go-Wrong* shows Feydeau on the way to becoming a master of mad imbroglio, a talent that he demonstrates in *Not by Bed Alone*. *Going to Pot* is a one-act play of conjugal strife of the emotional intensity that marked his work toward the end of his career.
