Technology (AIST) is a non-profit entity with 18,500 members from more than 70 countries. ... 6–10 February 2017, ... Structural and Rail Division, discussed preventive maintenance requirements for the electric arc furnace, and foundations with mechanical, electrical, injection equipment and safety hazards ...

## 2017 Modern Electric Furnace Steelmaking - AIST

For several decades, production of steel that comes from Electric Arc Furnaces (hereinafter referred to as EAFs) has been increasing in association with marked improvement of operation efficiency. EAF is a batch processing facility that allows flexible control of productivity in accordance with fluctuation of steel demand.
