This volume, and its companion, *Industrial Technology Development in Malaysia*, examine and evaluate Malaysian industrialization in terms of its experience of and prospects for industrial technology development. The focus is on role played by state-sponsored innovation in the process economic development and in the context of national development strategies. *Technology, Competitiveness and the State*, provides a valuable analysis of the technological development of a Newly Industrializing Country and reflects on whether existing development strategies can be maintained in the wake of the financial crises sweeping the East Asian economies.

Renowned engine builder and technical writer David Vizard turns his attention to extracting serious horsepower from small-block Chevy engines while doing it on a budget. Included are details of the desirable factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, the best blocks, rotating assembly (cranks, rods, and pistons), camshaft selection, lubrication, induction, ignition, exhaust systems, and more.

This paper describes economic developments in Grenada during the 1990s. The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong growth since the late 1980s, with real value added growing by 13.8 percent, on average, each year since 1989.

Its never happened before-a dead body discovered in a highly secured location of a nuclear power plant. Was it an inside job? And could it affect the outcome of the upcoming election and cause the shutdown of the nuclear power plant? Will Lindy Andrews figure out before it is too late that theres also a plot to cause a deadly leak of radiation that could affect thousands of nearby residents? The convergence of the publics need for electricity and the need for energy, the interests of environmentalists, the media, politicians, and the male-dominated world of nuclear power generation provides a backdrop to the current problems associated with power generation in the United States. Will Lindy Andrews, a rare female in the male-dominated world of nuclear power generation, be able to solve the mystery?
