Accounting is based on the principle of two-sided. In order to carry out business activities, the company needs funds; these funds must be given to the company by someone. The funds owned by the company are called assets . Part of these assets is provided by the owner, total amount of funds contributed by him is called owner ' s equity or capital. If the owner is the only one who contributed, then the equation  $A = O.E$  will be fair. (assets equal to capital).
