If you have one of the 351C, 351M, 400, 429 or 460 Ford V8s, this comprehensive book is a must. It walks you through a complete engine rebuild, step-by-step, with minimum use of special tools. Save money by finding out if your engine really needs rebuilding, or just simple and inexpensive maintenance. Results from diagnosis outlines in this book should be your guide, not the odometer. All rebuilding steps are illustrated from beginning to end. How to inspect parts of damage and wear, and to recondition each part yourself to get the job done right! The most complete source of information identifying major engine parts. Casting numbers, parts description, when a part was used and how it can be interchanged is fully covered in the text, in 20 tables and in 560 photos or drawings. This book will make you an expert!

The content of this book are based on personal interviews, personal service stories among my mates, members of the Royal Australian Air Force, and with historic records of airmen who were mainly trained in the Empire Air Training scheme. The scheme was set up to keep up a supply of trained aircrew to replace the immense numbers who were giving their lives. This book also tells of Australians among the heroic crews of Bomber Command and of their amazing courage and the record of achievement that is recorded forever in this history of Australian courage. It tells in detail the high price paid by aircrews to achieve victory, the loss of comrades and the extreme hazards faced day after day, which called for great courage and effort that in the end stole their youth.
