This open access book presents detailed pathways to achieve 100% renewable energy by 2050, globally and across ten geographical regions. Based on state-of-the-art scenario modelling, it provides the vital missing link between renewable energy targets and the measures needed to achieve them. Bringing

# File Type PDF Administra O Marketing Ise Planejamento Implementa O

together the latest research in climate science, renewable energy technology, employment and resource impacts, the book breaks new ground by covering all the elements essential to achieving the ambitious climate mitigation targets set out in the Paris Climate Agreement. For example, sectoral implementation pathways, with special emphasis on differences between developed and developing countries and regional conditions, provide tools to implement the scenarios globally and domestically. Non-energy greenhouse gas mitigation scenarios define a sustainable pathway for land-use change and the agricultural sector. Furthermore, results of the impact of the scenarios on employment and mineral and resource requirements provide vital insight on economic and resource management implications. The book clearly demonstrates that the goals of the Paris Agreement are achievable and feasible with current technology and are beneficial in economic and employment terms. It is essential reading for anyone with responsibility for implementing renewable energy or climate targets internationally or domestically, including climate policy negotiators, policy-makers at all levels of government, businesses with renewable energy commitments, researchers and the renewable energy industry.

This book contemplates the ethics of responsibility in a large range of meanings, consequences and impacts. It reflects the perspectives and reasoning of 24 authors from all continents. All chapters are original papers presented at the Fifth World ISBEE Congress, that took place in Warsaw, Poland, at the Kozminski University, on 11-14 of July, 2012. In this book, ethics and responsibility are considered essential traits of character, not only in the business or governmental arenas but in any initiative, decision and activity. The contributions to this book focus on a spectrum of themes, terms and concepts, the global corporate social responsibilities perspective covering impacts, challenges, analysis, criticism, consequences of important topics of real life, sustainability, international economy and regimes,

corruption, poverty and violence, among others. The book is intended for academics, researchers and professionals in all continents who are dedicated to Ethics, Business Ethics, Corporate Social Responsibility, Social Innovation, and Sustainability Management.

Employee engagement (or a lack thereof) can often be linked to poor communication and a detachment from company goals. Companies of all sizes are looking for ways to boost communication, recognizing its impact on key business outcomes, such as productivity and profitability. This book offers fresh insights about opportunities to improve the quality of employee communications based on employees' needs. It highlights the importance of simple, jargon-free communication that focuses on dialogue and content. High-performing organizations are more likely to think about communication from the audience perspective, rather than purely from the management perspective. The case studies offer readers a firm understanding of ways to implement and measure communication in daily practice. Effective communication requires planning and this book, with its focus on the US, Latin America, and emerging markets, will guide readers in using communication in the alignment of corporate and employee needs.

With 80 percent of the world's commodities being transported by water, ports are the pillars of the global economy. Port Management and Operations offers readers the opportunity to enhance their strategic thinking and problem-solving skills, while developing market foresight. It examines global port management practices at the regulatory, commercial, technological, operational, financial, and sociopolitical levels. This powerful sourcebook describes how seaports are being affected by the changes occurring nationally, regionally, and globally. Evaluating the new regulatory framework, it pinpoints the industry's implementation readiness and identifies potential problem areas. The book classifies the

# File Type PDF Administra O Marketing Ise Planejamento Implementa O

spectrum of interrelated port management principles, strategies, and activities in a logical sequence and under four cornerstones—Port Strategy and Structure, Legal and Regulatory Framework, Input: Factors of Production, and Output and Economic Framework. Detailing best practices and the latest industry developments, the book highlights emerging challenges for port managers and identifies opportunities to develop forward-thinking strategies. It examines the effectiveness of current strategies, tactics, tools, and resources of numerous global ports and highlights the necessity of adopting a proactive stance in harmonizing the laws, regulations, and policies pertaining to the maritime, oil, and gas industries. The shipping industry has myriad complexities and this book provides maritime managers and professionals with the wide-ranging and up-to-date understanding required to thrive in today's highly competitive and evolving environment.

An essential introduction to the responsible conduct of science in today's interconnected world This concise introductory guide explains the values that should inform the responsible conduct of scientific research in today's global setting. Featuring accessible discussions and ample real-world scenarios, *Doing Global Science* covers proper conduct, fraud and bias, the researcher's responsibilities to society, communication with the public, and much more. The book places special emphasis on the international and highly networked environment in which modern research is done, presenting science as an enterprise that is being transformed by globalization, interdisciplinary research projects, team science, and information technologies. Accessibly written by an InterAcademy Partnership committee comprised of leading scientists from around the world, *Doing Global Science* is required reading for students, practitioners, and anyone concerned about the responsible conduct of science today. Provides practical guidance and instructions for doing scientific research in today's global setting Covers everything from

responsible conduct to communication with the public Features numerous real-world scenarios drawn from an array of disciplines and national contexts Focuses on issues commonly encountered in international collaborations Written by a panel of leading experts from around the world An essential guide for practicing scientists and anyone concerned about fostering research integrity

Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

This book is the result of the project METROPOLE: An Integrated Framework to Analyse Local Decision Making and Adaptive Capacity to Large-Scale Environmental Change: Community Case Studies in Brazil, UK and the US, supported by the Belmont Forum-G8 Initiative Collaborative Research (Coastal Vulnerability, G8MUREFU3 2201-040). The Project METROPOLE was designed to

# File Type PDF Administra O Marketing Ise Planejamento Implementa O

address some important challenges of our time: on one hand, how to reduce the risks from climate change in coastal areas, in view of safeguarding life, assuring the safety of assets and the maintenance of rich ecosystems; and on the other hand, how to improve the interaction between scientists, decision makers and population for a common goal, to prevent alarming projections of sea level rise from being realized. This book focuses on the basis of the project which is anchored in the recognition of the importance of both dialogue and action on climate change involving different actors. Therefore, the participation of decision-makers, the population and representatives of civil and private organizations are key-elements in ensuring measures that might slow down, minimise or even restrict the perverse effects of climate change.

Critical Perspectives on Cultural Memory and Heritage focuses on the importance of memory and heritage for individual and group identity, and for their sense of belonging. It aims to expose the motives and discourses related to the destruction of memory and heritage during times of war, terror, sectarian conflict and through capitalist policies. It is within these affected spheres of cultural heritage where groups and communities ascribe values, develop memories, and shape their collective identity.

Taking Brand Initiative offers a revolutionary approach to corporate branding that looks beyond the marketing value of brands company-to-customer and the HR significance of brands company-to-employee. It places the management of brands at the senior level of management as it radiates throughout the organization. In this groundbreaking book, international branding thought leaders, Mary

Jo Hatch and Mark Schultz explain how a company's brand is just as important to outsiders—politicians, suppliers, and analysts—as it is to company insiders. They show how only the corporate brand can integrate all the company's staff functions and provide a vision for competition and globalization.
