Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world’s earliest novels in his previous book, literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800-from Don Quixote to America’s first big novel, an homage to Cervantes entitled Modern Chivalry. This is the period of such classic novels as Tom Jones, Candide, and Dangerous Liaisons, but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then, known only to specialists: Spanish picaresques, French heroic romances, massive Chinese novels, Japanese graphic novels, eccentric English novels, and the earliest American novels. These minor novels are not only interesting in their own right, but also provide the context needed to appreciate why the major novels were major breakthroughs. The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres: epistolary novels, romances, Gothic thrillers, novels in verse, parodies, science fiction, episodic road trips, and family sagas, along with quirky, unclassifiable experiments in fiction that resemble contemporary, avant-garde works. As in his previous volume, Moore privileges the innovators and outliers, those who kept the novel novel. In the most comprehensive history of this period ever written, Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative. Though written for a general audience, The Novel, An Alternative History also provides the scholarly apparatus required by the serious student of the period. This sequel, like its predecessor, is a “zealfully encyclopedic, avidly opinionated, and dazzlingly fresh history of the most ‘elastic’ of literary forms” (Booklist).

In despair at having no son to succeed him, the King of Turkey leaves his palace to live in seclusion. Soon after, however, he encounters four wandering dervishes - three princes and a rich merchant from Persia, Yemen and China - who have been guided to Turkey by a supernatural force that prophesied their meeting. The five men sit together in the dead of night, each in turn telling the tale of lost love that led him to renounce the world. As their stories within stories unfold, a magnificent world is revealed of courtly intrigue and romance, fairies and djinn, oriental gardens and lavish feasts, adventures and mishaps. A Tale of Four Dervishes (1803) is an exquisite example of Urdu fiction that provides a fascinating glimpse into the customs, beliefs and people of the time.

Traces the development of Indian cinema from the 1920s to the mid-1990s, before “Bollywood” erupted onto the world stage. Bombay before Bollywood offers a fresh, alternative look at the history of Indian cinema. Avoiding the conventional focus on India’s social and mythological films, Rosie Thomas examines the subaltern genres of the “magic and fighting films”—the fantasy, costume, and stunt films popular in the decades before and immediately after independence. She explores the influence of this other cinema on the big-budget masala films of the 1970s and 1980s, before “Bollywood” erupted onto the world stage in the mid-1990s. Thomas focuses on key moments in this hidden history, including the 1924 fairy fantasy Gul-e-Bakavali; the 1933 talkie Lal-e-Yaman; the exploits of stunt queen Fearless Nadia; the magical neverlands of Hatimtai and Aladdin and the Wonderful Lamp; and the 1960s stunt capers Zimbo and Khilari. She includes a detailed ethnographic account of the Bombay film industry of the early 1980s, centering on the beliefs and fantasies of filmmakers themselves with regard to filmmaking and film audiences, and on-the-ground operations of the industry. A welcome addition to the fields of film studies and cultural studies, the book will also appeal to general readers with an interest in Indian cinema. “In this powerful account, Rosie Thomas opens out filmic artifacts to an array of dazzling reflections shedding new light on the movement and circulation of popular culture in India. With a remarkable body of research conducted over a period of time, Bombay before Bollywood decisively challenges certain assumptions about India, its cinemas, and its audiences.” — Ranjani Mazumdar, author of Bombay Cinema: An Archive of the City “This is the archaeology of media performed with intellect, wit, and passion. Rosie Thomas pioneered this field and she remains its most brilliantly iridescent critic and advocate. If only all film studies were this revelatory and this enjoyable!” — Christopher Pinney, author of Camera Indica: The Social Life of Indian Photographs “Rosie Thomas’s body of research over the last twenty-five years has set up key discourses in the study of Indian popular cinema. This book brings together her pioneering fieldwork into film industry categories and practices, and her more recent bid to resurrect a history made well-nigh clandestine by official narratives: the significance of Arabian Nights fantasies, stunt films, and visceral attractions in Bombay cinema. Pleasurably crafted and provocatively argued, Bombay before Bollywood is an important intervention in Indian and world cinema studies.” — Ravi Vasudevan, author of The Melodramatic Public: Film Form and Spectatorship in Indian Cinema

Scheherazade’s Children gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors. The contributors, drawn from a wide array of disciplines, extend their inquiries into the book’s metamorphoses on stage and screen as well as in literature—from India to Japan, from Sanskrit mythology to British pantomime, from Baroque opera to puppet shows. Their highly original research illuminates little-known manifestations of the Nights, and provides unexpected contexts for understanding the book’s complex history. Polemical issues are thereby given unprecedented and enlightening interpretations. Organized under the rubrics of Translating, Engaging, and Staging, these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence. In this view, the Arabian Nights is a dynamic, living and breathing cross-cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema. While scholarly, the writers’ approach is also lively and entertaining, and the book is richly illustrated with unusual materials to deliver a sparkling and highly original exploration of the Arabian Nights’ radiating influence on world literature, performance, and culture.

“In A Fatal Friendship: The Nawabs, the British and the City of Lucknow, Rosie Llewellyn-Jones examines the fascinating interaction between two cultures - the Briitish and the Nawabi. Besides touching on the political aspects of Nawabi rule in the province of Oudh, the author discusses the ethos and architecture of Lucknow in its heydey: between the period of the first Nawab in the early eighteenth century, and the last Nawab who was deposed by the British in 1856.”.

Sharar begins with a history of the Avadh dynasty, and the relations of its rulers - who ranged between extremes of political wisdom and dissolute instability - with the Mughal Emperors in Delhi and with the British at a time of rising British power in India. He also describes the development of Lucknow people’s culture and social institutions to a degree of richness that may be compared with the levels attained by the most admired of the great civilizations of history. There follows a virtual ‘anatomy’ of the everyday life and artistic achievements of Lucknow during the period, covering an astonishing variety of topics: religion, education, medicine, ceremony and etiquette, dress, the culinary arts, calligraphy, dance popular speech and the practice of story-telling; such pastimes as kite- and pigeon-flying and the arts of combat and self-defence; the evolution of the Urdu language and its prose and poetry; architecture, music, pottery, theatre and other forms of entertainment. The culture of which Sharar writes was still alive in his day; it died out completely only in 1947, with the ultimate collapse of the feudal system. The editors provide extensive annotation that includes much background information for the benefit of both Western and Eastern readers, and takes account of scholarship on a number of subjects over the half-century that has elapsed since the original work was written. Among the attractive and varied illustrations are some particularly valuable early photographs of Lucknow buildings, a number of which were completely destroyed during the Mutiny.

A dazzling Urdu epic that evokes a magical Indo-Muslim world Originally composed in the fourteenth century and made popular in 1803 by Mir Amman’s colloquial retelling, this wonderfully entertaining story paints a portrait of a distant and colorful time and place. In despair at having no son to succeed him, the king of Turkey leaves his palace to live in seclusion. Soon afterward, however, he encounters four wandering dervishes- three princes and a rich merchant-who have been guided to Turkey by a supernatural force that prophesied their meeting. As the five men sit together in the dead of night sharing their tales of lost love, a magnificent landscape reveals courtly intrigue and romance, fairies and djinn, oriental gardens and lavish feasts.
