How To Remember "Cut | Copy | Paste" Keyboard Shortcuts

In human-computer interaction and user interface design, Cut, Copy, and Paste are related commands that offer an interprocess communication technique for transferring data through a computer's user interface. The Cut command removes the selected data from its original position, while the Copy command creates a duplicate; in both cases the selected data is kept in temporary storage. The data from the clipboard is later inserted wherever a Paste command is issued. The data remains available ...
