The schizoanalytic method and the lines of flight that it has inspired align with contemporary feminist concerns and practices in productive and revealing ways in this ground-breaking collection. To address the relevance of schizoanalysis for contemporary developments in new materialism, affect theory, transnational feminism, political ontology, feminist critiques of globalization and capitalism, feminist pedagogy, and ethics, the overarching questions explored are: What can schizoanalysis do for feminist theory? What would a feminist schizoanalysis look like? Is it possible to perform a schizoanalysis of feminism? How do schizoanalytic-feminist alliances create new ways of understanding the future, sexuality and bodily transformation, political resistance, new subjectivities, and ethical relationships? Highlighting the strength, richness, and diversity of feminist perspectives this collection shows how issues of re-conceiving desire, theorizing embodiment and materiality, interrogating the status of sexuality and difference, decentering feminist practice to be inclusive of transnational and de-colonial concerns, critiques of binary logic and gender, transversal politics, and the need for new political visions in light of advanced capitalism are all enhanced by this alliance.
