Designed for use in advanced composition courses, this text helps students develop abilities in composition tasks that reflect the kind of writing students are generally asked to perform as Spanish majors and minors. This revision responds to the growing interest in the development of functional, purposeful language skills, to the findings of writing research, and to the helpful reactions of those who have used this best-selling textbook throughout the years..

The Cuaderno de práctica helps student expand and refine a number of writing tools (control of grammar, range of vocabulary, rhetorical techniques for organizing information) as well as strategies for getting started. Each chapter begins with a section entitled Páginas personales, in which students perform a variety of prewriting tasks from the Primera and Segunda etapa sections of the textbook; grammar exercises to accompany explanations in the textbook are all in the workbook, where students can check many of their own answers in an answer appendix.

Composición: Proceso y síntesis is designed for use in the advanced Spanish composition course to help students develop the ability to perform the writing tasks that are generally expected of Spanish majors and minors. Since the publication of the first edition, instructors in this course have conveyed an increased interest in the development of functional, purposeful language skills, and the authors factored this into their revision. This fifth edition also takes into account recent findings in writing research, and owes many of its improvements to the helpful feedback from those who have used this best-selling textbook for more than twenty years. With the CourseSmart e Textbook version of this title students can save up to 50% off the cost of a print book, reduce their impact on the environment, and access powerful web tools for learning. Faculty can also review and compare the full text online without having to wait for a print desk copy. For maximum portability, e Textbooks can be viewed on an iPhone or iPod Touch, and they can be printed.

"With articles on Spanglish and Spanish loan words in English as well as Southeast Asian refugees and World Englishes, this encyclopedia has a broad scope that will make it useful in academic and large public libraries serving those involved in teaching and learning in multiple languages. Also available as an ebook." — Booklist The simplest definition of bilingual education is the

use of two languages in the teaching of curriculum content in K – 12 schools. There is an important difference to keep in mind between bilingual education and the study of foreign languages as school subjects: In bilingual education, two languages are used for instruction, and the goal is academic success in and through the two languages. The traditional model of foreign-language study places the emphasis on the acquisition of the languages themselves. The field of bilingual education is dynamic and even controversial. The two volumes of this comprehensive, first-stop reference work collect and synthesize the knowledge base that has been well researched and accepted in the United States and abroad while also taking note of how this topic affects schools, research centers, legislative bodies, advocacy organizations, and families. The Encyclopedia of Bilingual Education is embedded in several disciplines, including applied linguistics, politics, civil rights, historical events, and of course, classroom instruction. This work is a compendium of information on bilingual education and related topics in the United States with select international contributors providing global insight onto the field. Key Features Explores in a comprehensive, non-technical way the intricacies of this subject from multiple perspectives: its history, policy, classroom practice, instructional design, and research bases Shows connections between bilingual education and related subjects, such as linguistics, education equity issues, socio-cultural diversity, and the nature of demographic change in the United States Documents the history of bilingual education in the last half of the 20th century and summarizes its roots in earlier periods Discusses important legislation and litigation documents Key Themes · Family, Community, and Society · History · Instructional Design · Languages and Linguistics · People and Organizations · Policy Evolution · Social Science Perspectives · Teaching and Learning The Encyclopedia of Bilingual Education is a valuable resource for those who wish to understand the polemics associated with this field as well as its technical details. This will be an excellent addition to any academic library.
