Enhances the world history curriculum through analysis of primary and secondary sources. Features 23 new and revised document-based questions covering significant eras. Teacher support includes scoring rubric and tips for implementation.

In 1850, China was the 'sick man of Asia'. Now it is set to become the most powerful nation on earth.The Penguin History of Modern China shows how turbulent that journey has been. For 150 years China has endured as victim to brutality on an unmatched scale, to oppression, to war and to famine. This makes its current position as the newest and, arguably, most important global superpower all the more extraordinary. Jonathan Fenby's clear and comprehensive account of China's recent past is the definitive guide to this remarkable transformation.

This accessible autobiography is the true story of one girl's determination to hold her family together during one of the most terrifying eras of the twentieth century. It's 1966, and twelve-year-old Ji-li Jiang has everything a girl could want: brains, friends, and a bright future in Communist China. But it's also the year that China's leader, Mao Zedong, launches the Cultural Revolution—and Ji-li's world begins to fall apart. Over the next few years, people who were once her friends and neighbors turn on her and her family, forcing them to live in constant terror of arrest. When Ji-li's father is finally imprisoned, she faces the most difficult dilemma of her life. A personal and painful memoir—a page-turner as well as excellent material for social studies curricula—Red Scarf Girl also includes a thorough glossary and pronunciation guide. Supports the Common Core State Standards

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of \"eliminationist anti-Semitism\" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. \"Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust.\" --New York Review of Books \"The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity.\"--Philadelphia Inquirer

A new book for Paper 1, Prescribed Subject 3: The Move to Global War The renowned IB Diploma History series, combining compelling narratives with academic rigor. An authoritative and engaging narrative, with the widest variety of sources at this level, helping students to develop their knowledge and analytical skills. Provides: - Reliable, clear and in-depth content from topic experts - Analysis of the historiography surrounding key debates - Dedicated exam practice with model answers and practice questions - TOK support and Historical Investigation questions to help with all aspects of the Diploma

From 1910 to 1940, over half a million people sailed through the Golden Gate, hoping to start a new life in America. But they did not all disembark in San Francisco; instead, most were ferried across the bay to the Angel Island Immigration Station. For many, this was the real gateway to the United States. For others, it was a prison and their final destination, before being sent home. In this landmark book, historians Erika Lee and Judy Yung (both descendants of immigrants detained on the island) provide the first comprehensive history of the Angel Island Immigration Station. Drawing on extensive new research, including immigration records, oral histories, and inscriptions on the barrack walls, the authors produce a sweeping yet intensely personal history of Chinese \"paper sons,\" Japanese picture brides, Korean students, South Asian political activists, Russian and Jewish refugees, Mexican families, Filipino repatriates, and many others from around the world. Their experiences on Angel Island reveal how America's discriminatory immigration policies changed the lives of immigrants and transformed the nation. A place of heartrending history and breathtaking beauty, the Angel Island Immigration Station is a National Historic Landmark, and like Ellis Island, it is recognized as one of the most important sites where America's immigration history was made. This fascinating history is ultimately about America itself and its complicated relationship to immigration, a story that continues today.

Collects one hundred documents that were important in the development of the United States from its founding to 1965, including the Declaration of Independence, Constitution, and lesser-known writings.

This book brings together distinguished contributors to create an essential reference volume on the future of China in the 1990s. The editors and contributors identify the main trends in the economy, cover the important topics carefully and comprehensively, and provide thought-provoking analysis of the likely future directions for China's growth.
