With all the warnings against women being pregnant after 35, I started to observe people who are pregnant during the late age. I cursed myself for not having this urge when I was 30, not a couple of years away from 40. Well, Nicole Kidman was having her first baby at 41, but obviously I'm not a Hollywood starlet with an army of top-notch doctors and babysitters. Or should I opt for adoption instead?

Read along with Disney! Based on Disney's Frozen, this charmingly illustrated storybook features everyone's favorite snowman, Olaf. Olaf is a very special snowman who sings, he dances, and he has big dreams that he loves to share. Follow along with the word-for-word narration and explore Olaf's world!

Fearless optimist Anna sets off on an epic journey-teaming up with rugged mountain man Kristoff and his loyal reindeer Sven-to find her sister Elsa, whose icy powers have trapped the kingdom of Arendelle in eternal winter. Encountering Everest-like conditions, mystical trolls, and a hilarious snowman named Olaf, Anna and Kristoff battle the elements in a race to save the kingdom. Based on the Disney film, Frozen, this exciting storybook-and-CD set features thrilling sound effects, word-for-word narration, and original movie voices!

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

Electrotechnology Practice is a practical text that accompanies Hampson/Hanssen's theoretical Electrical Trade Principles. It covers essential units of competencies in the two key qualifications in the UEE Electrotechnology Training Package: - Certificate II in Electrotechnology (Career Start) - Certificate III in Electrotechnology Electrician Aligned with the latest Australian and New Zealand standards, the text references the Wiring Rules (AS/NZS 3000:2018) and follows the uniform structure and system of delivery as recommended by the nationally accredited vocational education and training authorities. More than 1000 illustrations convey to the learner various concepts and real-world aspects of electrical practices, a range of fully worked examples and review questions support student learning, while assessment-style worksheets support the volume of assessment. Electrotechnology Practice has strong coverage of the electives for Cert II and Cert III, preparing students to eligibly sit for the Capstone Assessment or the Licenced Electrician's Assessment (LEA), as a mandatory requirement to earn an Electrician's Licence. Premium online teaching and learning tools are available on the MindTap platform.

In his #1 New York Times bestseller Agents of the Apocalypse, noted prophecy expert Dr. David Jeremiah explored the book of Revelation through the lens of its major players. Now, in the much-anticipated follow-up, Agents of Babylon, Dr. Jeremiah examines prophecy through the eyes of the characters in the book of Daniel, explains what the prophecies mean, and helps us understand how these prophetic visions and dreams apply to our lives today. Written in the same highly engaging half dramatization, half Bible teaching format as Agents of the Apocalypse, Agents of Babylon is not only an in-depth exploration of the characters and prophecies contained in the book of Daniel but also a dramatic retelling of Scripture that is sure to bring ancient prophecy to light like never before.

The proliferation of new digital technologies has given rise to an entirely changed media landscape and revolutionized how we seek entertainment. Older entertainment media like novels, radio, and film have been joined by a host of digital media that smartphones allow us to carry almost anywhere and at all times, from video games and social media to video on demand services. This unprecedented ubiquity of entertainment media calls for new and more sophisticated theories that help us understand the fascination that different entertainment media exert on us and how they change the human experience. The Oxford Handbook of Entertainment Theory surveys and furthers the most influential psychology-driven research on media entertainment to illuminate how people are drawn into media experiences. The 41 chapters in this Handbook not only offer fresh perspectives on established theories but also introduce emerging models and highlight the importance of considering the diverse backgrounds of media users when conducting research. They also cover the motivations and reactions of media users in relationship to different types of media, the trend towards interactive media such as video games and virtual reality, and particularly popular media contents like sexuality, violence, sports, and the news. As the most comprehensive overview of psychology-based research on media entertainment available, this Handbook is an invaluable resource for seasoned researchers and those beginning to learn about the field alike.
