A collection of twenty-one traditional tales from the British Isles.

The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

This practical nuts-and-bolts guide provides readers with the skills necessary to handle any crisis situation. The book utilizes the comprehensive ABC Model of Crisis Intervention, which can be used as effectively for day-to-day interactions as for emergency situations. *A GUIDE TO CRISIS INTERVENTION*, 5th Edition addresses such crises as drug abuse, secondary PTSD, crisis worker burnout, AIDS, suicide, death and dying, Alzheimer's, and victimization and abuse. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Invaders have exploded the sun's nearest star. Will the death of Earth's sun be next? While trying to keep up with his school studies and ensuring his soccer team stays top of the league, it's Johnny's job to safeguard planet Earth. When invaders turn a nearby star into a supernova, Johnny must act to protect the sun. Johnny and his sister Clara prepare to travel in their space ship to the galactic capital for help, but their mission is stalled when Johnny discovers that his mysterious elder brother Nicky is on the side of the invaders... So begins an epic adventure across space, involving killer clones, a spy trial and devious alien twins. Will Johnny save his brother, and planet Earth, in time? Keith Mansfield's vivid space adventure will wow fans of action stories and science fiction.

Dive right into this kids edition of Seth Casteel's amazing *Underwater Dogs*. With colorful photographs of the cutest canines chasing after their favourite toys and hilarious, joyful rhymes, this is a special treat for kids and adults alike.
