The ultimate service manuals! Bentley manuals are the only comprehensive, single source of service information and specifications available for BMW cars. These manuals provide the highest level of clarity and completeness for all service and repair procedures. Enthusiasts, do-it-yourselfers, and professional technicians will appreciate the quality of photographs and illustrations, theory of operation, and accurate step-by-step instructions. If you are looking for better understanding of your BMW, look no further than Bentley. Even if you do not repair your own vehicle, knowledge of its internal workings will help you when discussing repairs and maintenance with your professional automotive technician. This Bentley Manual is the only comprehensive, single source of service information and specifications available specifically for BMW 5 Series from 1997 to 2002. The aim throughout this manual has been simplicity, clarity and completeness, with practical explanations, step-by-step procedures and accurate specifications. Whether you are a professional or a do-it-yourself BMW owner, this manual will help you understand, care for and repair your E39 5 Series. Though the do-it-yourself BMW owner will find this manual indispensable as a source of detailed maintenance and repair information, the BMW owner who has no intention of working on his or her car will find that reading and owning this manual will make it possible to discuss repairs more intelligently with a professional technician.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America ' s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede ' s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid ' s, handle like a pro ' s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropriate gear, to how to ride safely, and how to make the most out of trips on the open road.

Few activities offer more fun and excitement than motorcycling, but to get the most out of it, there ' s a lot you need to know. From buying and maintaining a bike, to riding safely, to finding great places to ride, Motorcycling For Dummies puts you on the road with savvy and style, whether you ' re male or female, new to riding or an experienced vet. This fun, practical, and informative guide gets you geared up and ready to ride! You ' ll get plenty of help in selecting the right bike and step-by-step instructions on performing routine maintenance tasks. You ' ll also find out how to develop safe riding habits and, maybe most important of all, fit in with the biker crowd. Plus, this indispensable resource shows you advanced riding techniques, offers travel tips for long-distance rides, and even helps you get your kids started in motorcycling. Discover how to: Buy a new or used bike Select safe, tough riding gear, from helmet and jacket to boots and pants Get proper training and learn essential riding skills Insure your bike Pass even the toughest licensing test Try your hand at cruising, touring, sports biking, and more Get involved in motorcycle clubs and events Deal with dangers on the road Customize your bike to improve both style and performance Complete with lists of great biking events, organizations, people, and even movies, Motorcycling For Dummies gives a whole new meaning to the term " easy rider. "

Every red-blooded motorcyclist dreams of making the Big Trip--this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus--first hand accounts of biking adventures worldwide.
