billion) neurons. Each
neuron has on
average 7,000
synaptic connections
to other neurons. It
has been estimated
that the brain of a
three-year-old child
has about 10 15
synapses (1
quadrillion). This
number declines ...

Acces PDF From Neuron To

The neuron is the basic working unit of the brain, a specialized cell designed to transmit information to other nerve cells, muscle, or gland cells. Neurons are cells within the nervous system that transmit information to other nerve cells, muscle, or gland cells. Most neurons have a
