SYDNEY and KUALA LUMPUR, Nov 02 (IPS) - US third quarter GDP numbers released two weeks ago delighted stock markets and President Trump. Output had picked up by 7.4%, annualised as 33.1%, the largest quarterly economic growth on record, almost double the old record of 3.9% (annualised as 16.7%) in the first quarter of 1950, seven decades ago.

International political economy, also known as global political economy, refers to either economics or an interdisciplinary academic discipline that analyzes economics, politics and international relations. When it is used to refer to the latter, it usually focuses on political economy and economics, although it may also draw on a few other distinct academic schools, notably political science, also sociology, history, and cultural studies. IPE is most closely linked to the fields of macroeconomics
