Just days after the Germans surrendered at Stalingrad, legendary Red Army sniper Vasily Zaytsev described the horrors he witnessed during the five-month long conflict: “one sees the young girls, the children who hang from trees in the park... I have unsteady nerves and I'm constantly shaking.” He was being interviewed, along with 214 other men and women—soldiers, officers, civilians, administrative staffers and others—amidst the rubble that remained of Stalingrad by members of Moscow's Historical Commission. Sent by the Kremlin, their aim was to record a comprehensive, historical documentary of the tremendous hardships overcome and heroic triumphs achieved during the battle. 20 soldiers of the 38th Rifle Division vividly recount how they stumbled upon the commander of the German troops, Field Marshal Friederich Paulus, defeated and hiding in a bed that reeked like a latrine. A lieutenant colonel remembers the brave 20 year-old adjutant who wrapped his arms around his commander's body to protect him from a flying grenade. Working around the

clock, Nurse Vera Gurova describes a 24 hour period during which her hospital received over than 600 wounded men – equivalent to one every two and an half minutes. Countless soldiers endured shrapnel wounds and received blood transfusions in the trenches, but she can't forget the young amputee who begged her to avenge his suffering at Stalingrad. This harrowing montage of distinct voices was so candid that the Kremlin forbade its publication and consigned the bulk of these documents to a Moscow archive where they remained forgotten for decades, until now. Jochen Hellbeck's Stalingrad is a definitive portrait of perhaps the greatest urban battle of the Second World War—a pivotal moment in the course of the war re-created with absolute candor and chilling veracity by the voices of the men and women who fought there.

Have fun, save money, and improve your home with these easy step-by-step projects Are you looking for a way to make your bathroom a little more beautiful? Or maybe you'd like to give your tired furniture a face-lift, improve your home's air quality, or fix a toilet. No matter your DIY needs and no matter whether you're a DIY novice or expert, home improvement guru Andrea Ridout, host of the nationally syndicated radio show Ask Andrea, has ideas, expertise, and advice to share with you. If I Had a Hammer offers easy-to-follow instructions and illustrations designed to make home improvement simpler than ever. With a little help from Andrea, you'll be able to tackle repairs, painting and decorating, bathroom and kitchen remodeling, wood care for furniture and floors, and much more with projects that often take as little as an hour. Also, you can try a few of Andrea's energy-conserving projects that can dramatically improve your utility bill—Andrea's projects are friendly on the environment and on your wallet! With If I Had a Hammer, you'll have the tools to keep your home functioning and looking as good as—or even better than—new.

This book has been written with the intention of providing an up-to-the minute review of acute coronary syndromes. Atherosclerotic coronary disease is still a leading cause of death within developed countries and not surprisingly, is significantly rising in others. Over the past decade the treatment of these syndromes has changed dramatically. The introduction of novel therapies has impacted the outcomes and surviving rates in such a way that the medical community need to be up to date almost on a "daily bases". It is hoped that this book will provide a timely update on acute coronary syndromes and prove to be an invaluable resource for practitioners seeking new and innovative ways to deliver the best possible care to their patients.

The Allen Laboratory Manual for Anatomy and Physiology, 6th Edition contains dynamic and applied activities and experiments that help students both visualize anatomical structures and understand complex physiological topics. Lab exercises are designed in a way that requires students to first apply information they learned and then critically evaluate it. With many different format options available, and powerful digital resources, it's easy to customize this laboratory manual to best fit your course.

Discover a host of favorite quilts from Kim Brackett's much-loved books Scrap-Basket Surprises and Scrap-Basket Sensations. This Third Edition updates the "Solutions Manual for Econometrics" to match the Fifth Edition of the Econometrics textbook. It adds problems and solutions using latest software versions of Stata and EViews. Special features include empirical examples using EViews and Stata. The book offers rigorous proofs and treatment of difficult econometrics concepts in a simple and clear way, and it provides the reader with both applied and theoretical econometrics

problems along with their solutions.

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

"Microsoft's last Windows version, the April 2018 Update, is a glorious Santa sack full of new features and refinements. What's still not included, though, is a single page of printed instructions. Fortunately, David Pogue is back to help you make sense of it all--with humor, authority, and 500 illustrations."--Page 4 of cover.
