Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process.

(PDF) Human dimension & interior space | Thitayut Phankhaw ...

The interior spaces of buildings are designed as places for human movement, activity, and repose. There should be, therefore, a fit between the form and dimensions of interior space and our own body dimensions. This fit can be a static one, as when we sit in a chair, lean against a railing, or nestle within an alcove.

□ *Human Dimension and Interior Space on Apple Books*

The Human Dimension is a framework for United States Army to Optimize Human Performance as part of Force 2025 and Beyond. The Human Dimension White Paper expands on the topic covered in this page. It is not enough for leaders to tolerate or even grow comfortable with uncertainty, the Army requires agile, adaptive, and ethical leaders trained and educated to improve and thrive in uncertainty.
