RADAR 1.

Introduction: Radar
(RAdio Detection And
Ranging) is an active
sensor that has
undergone substantial
refinement and

Download Free I Perimeter

enhancement since its first operational use as a detection sensor in the early 1940s.

The first type of security
device is the microwave
barrier perimeter alarm.
This type of alarm is

Download Free I Perimeter

perfect for the outdoors and is usually created specifically for the outdoors. It creates a vertical wall-like wave of microwave beams. It is similar to a vertical microwave motion detector that sensors when its emitted waves are disrupted.
