Toward developing a rational basis for the metal cutting process. From the introduction: The economic importance of the cutting process may be appreciated by the single observation that nearly every device in use in our complex society has one or more machined surfaces or holes. There are several reasons for developing a rational approach to the cutting problem: 1. To improve cutting techniques--even minor improvements are of major importance in high volume production. 2. To produce products of greater precision and of greater useful life. 3. To increase the rate of production and produce a greater number and variety of products with the tools available. In this treatment of the subject we will consider the cutting process in fundamental terms. The objective is to explain a number of commonly observed results rather than to present a large mass of empirical constants and a large number of empirical relationships of limited applicability.

* Teaches VHDL by example * Includes tools for simulation and synthesis * CD-ROM containing Code/Design examples and a working demo of ModelSIM

Buku ini ditulis untuk Anda yang ingin mempelajari berbagai hal tentang Sistem Informasi dan Teknologi Informasi. Topik yang dibahas meliputi sistem informasi dan teknologi komputer, mulai dari perangkat keras dengan berbagai komponennya. Setelah membaca buku ini, diharapkan Anda mengetahui berbagai komponen komputer, cara kerjanya, dan manfaatnya bagi pekerjaan Anda. Buku ini ditulis oleh seorang penulis yang sudah berpengalaman puluhan tahun, sehingga isinya mudah dibaca, dilengkapi dengan banyak gambar, menjadikan buku ini menarik untuk dibaca. Buku ini juga dapat dijadikan buku teks untuk mata kuliah yang berkaitan dengan komputer, sistem informasi, dan teknologi informasi.

Examining the tourism area life cycle (TALC) system in depth, this book is divided into four sections: the foundations of the TALC, the TALC in heritage settings, local involvement and the TALC and rejuvenation. It subsequently concludes with a discussion on the TALC model in relation to sustainability.

It is said that school leavers in Indonesia are not able to speak English confidently. They have no courage to speak, even though they actually feel that they have something to say in their mind. They are afraid to make mistakes when speaking because they never feel happy with their English grammar and vocabulary at school. English for Everyday Speaking is directed at those who have learned English and have no courage to speak but want to practice their spoken English. This book is not only suitably used by high school students, university students, language centers, English course learners and English speaking club members as a main course book for speaking, but also for employees, workers, staff, teachers, employers or members of a family as a core handbook for language practice during their leisure time. This book covers very common daily topics which everyone is familiar with, such as Daily Activities, Personal Information, Family Life, Culture, Sport, Housemaids, Hobbies and Interests, Smoking and Drinking, Music, Health, Education, School Life, Love, Holiday, Food and Drink, Marriage, Sex, Demonstrations & Strikes, Terrorism, Crime and Prisons, Debates, etc. The questions, which are intended to arouse learners to speak, are generally simple to answer for ordinary learners. They need practical ideas or knowledge but do not need deep academic or scientific knowledge to answer them. However, if the group of learners have more advanced knowledge about the topics and are interested to delve deeper on the topics, there are also some possibilities to do so. English for Everyday Speaking is designed by an experienced English teacher. In addition, these materials have been tried out at STP Bandung, STBA, Maranatha University, the Center at Jl. Setiabudhi, Bandung and some other language centers.

Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director, and explains how their separate energies must combine to create a successful short film or video, from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. World Development Report 2020: Trading for Development in the Age of Global Value Chains examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

Bukan mudah, tapi ia tidak mustahil. Sesiapa sahaja mampu bebas daripada hutang jika ada ilmu, kesedaran dan keazaman yang kuat. Kebanyakan mereka yang mengadu masalah kewangan, bukan disebabkan gaji yang diterimanya tak cukup, tetapi disebabkan masalah hutang yang dibuatnya sendiri. Bukan tak boleh berhutang, namun biarlah berhutang pada perkara yang benar-benar perlu, dan berhutanglah secara bijak (yang menjadikan kita lebih kaya). Beban kewangan terbesar bagi kebanyakan rakyat Malaysia ialah ansuran pinjaman membeli kereta, pinjaman peribadi, kad kredit dan hutang membeli rumah kediaman 'impian' yang mana jika tiada pun kita masih boleh hidup. Ia tidak seperti kos keperluan asas untuk hidup seperti makanan, pakaian dan tempat tinggal. Jadi sesiapa yang dapat bebas daripada hutang-hutang ini, kita terlepas daripada bebanan kewangan terbesar. Seterusnya kita bolehlah fokus mengumpul harta dan mengembangkan kekayaan.

Respected for its accuracy, its smooth and logical flow of ideas, and its clear presentation, 'Field and Wave Electromagnetics' has become an established textbook in the field of electromagnetics. This book builds the electromagnetic model using an axiomatic approach in steps: first for static electric fields, then for static magnetic fields, and finally for time-varying fields leading to Maxwell's equations.
