LAIKA is the story of planet Earth ' s first voyager into space. She was the Russian dog launched into orbit in 1957 aboard the Soviet satellite Sputnik II, only the second such vehicle ever to be launched. Sputniks I and II heralded the space race and the age of information and technology we now live in.

LAIKA — Nick Abadzis

Laika is an historical fiction based around the Soviet space program, and the space dogs experiments in the early 1950s. Author / artist Abadzis constructs a heartwrenching prequel for Laika, a stray dog before coming to the aviation test center. We also get the (true?) back story of some of the scientists in the Sputnik program.

Abadzis went freelance in 1988 when his career as a cartoonist took off in the pages of legendary UK comics and music magazine Deadline. Here he created two of his best-known characters, Hugo Tate, a stick-man lost in a figuratively drawn world, and the shapeshifting Mr. Pleebus, who later starred in his own series of children's books.

Nick Abadzis' LAIKA is a fictionalized account of the short life and sad death of Laika, the Soviet space dog. Be forewarned: it's a three-handkerchief, bucket-of-tears kind of novel. Laika's story is one of loyalty and trust repaid with callous abandonment and deception, and the injustice of this tale resonates deeply.
