The acquisition and maintenance of literacy is of pressing interest and concern to educators and educational policy makers worldwide. What are the common themes, the common questions, and the unique circumstances and initiatives that spring from this interest and concern? To address these questions, Understanding Literacy Development: A Global View brings together leading experts from around the world to explore ways to best provide teaching and learning opportunities, tailored to specific educational needs, to help all children become better readers. The premise is that current generic "one-size-fits-all" approaches are inappropriate for many children and can lead to underachievement and failure. The contributors write from a stance that reflects not only their own particular expertise and experience, but also sheds light on literacy development across cultures, countries, and circumstances. Taken together, chapters in this volume target a wide and comprehensive set of literacy issues, and offer an extensive exploration of the complexities of literacy development, including issues related to early literacy, school instruction, family literacy, adolescent and adult literacy, and teacher development. At a time when education is burdened by increasing economic pressure to do more with less, it is imperative that educators and decision makers at all levels have access to current, broad-ranging, and in-depth information and evidence to inform their choices. This volume, compiling critical research on a wide spectrum of literacy concerns, is an invaluable tool for scholars, teacher educators, professionals and graduate students in the fields of literacy education, early childhood education, educational psychology, educational policy, and related areas.

When a girl brings home an octopus and wants to keep him as a pet, her daddy reminds her of the crocodile, seals, and other inappropriate animals she has already brought into the house.

Researching Pedagogic Tasks brings together a series of empirical studies into the use of pedagogical tasks for second language learning, with a view to better understanding the structure of tasks, their impact on students, and their use by teachers. The volume starts with an introduction to the background and key issues in the topic area and is then organised into three sections: the first section focuses on the language and learning of students on tasks the second on the use of tasks in the language classroom the third on the use of tasks for language testing Each section begins with a succinct section introduction, and the volume concludes with an afterword relating the theme of the volume to issues in curriculum development. The chapters include both experimental and qualitative approaches to the topic, some providing original accounts of specific studies, others offering overviews of linked series of studies.

In the highly popular MACS-Lift Short-Scar Rhytidectomy, Drs. Patrick Tonnard and Alexis Verpaele introduced surgeons to an exciting new concept in facial rejuvenation-one that offered shorter incisions, minimal morbidity, and reduced recovery time. In this companion volume, Short-Scar Face Lift: Operative Strategies and Techniques, Drs. Tonnard and Verpaele build on that foundation and expand their scope. The book is organized into two sections. Part I, Short-Scar Face-Lift Techniques, discusses indications, applications, and alternate short-scar face-lift techniques. The editors elaborate on the different aspects of the MACS-lift and short-scar face-lifting. They review the important lessons they have learned during years of experience with the MACS-lift, including a discussion of complications, problems, limitations, and technical tips and tricks. They are joined by Dr. Foad Nahai, who discusses technical considerations; Dr. Joseph Hunstad, who provides a systematic step-by-step guide to his approach; Dr. Mark Jewell, who describes the biomechanics of the MACS-lift and offers technical tips for success; and Dr. Daniel Baker, who describes his personal lateral SMASectomy short-scar face-lift technique and compares it to other comparable and convergent techniques. Part II focuses on Combined Approaches and Ancillary Treatments for facial rejuvenation. In this section, Dr. Daniel Labb discusses the anatomic basis of minimally invasive neck correction through a short scar and Dr. Alain Fogli details his simple, safe technique for temporal lifting. Finally, Dr. Thomas Roberts brings all of these techniques and treatments into perspective through his analysis of the volumetric concept of facial rejuvenation. He provides an in-depth discussion of facial fat micrografting and describes how the synergistic use of multiple surgical and nonsurgical modalities can lead to superior results. With beautiful, four-color illustrations, numerous case examples, and an accompanying DVD with operative videos, this book provides the ultimate surgical instruction that will allow surgeons to incorporate this procedure into their practice.

She was a queen whose strong will, shrewd diplomacy, religious tolerance and great love for her subjects won the hearts of her people and the admiration of her enemies. Elizabeth was born into an age of religious strife, in which plots and factions were everywhere and private beliefs could be punished by death. When she became queen, her counselors urged her to marry quickly and turn the responsibilities of governing over to her husband, But she outwitted them by stalling, changing her mind; and playing one side against another, as she steered her country to the glorious era of peace and security that would be called the Elizabethan Age. Elizabeth's forceful personality, colorful court, and devoted subjects come vividly to life in this stellar picture-book biography. When it was first published, Good Queen Bess was named a Notable Book in the Field of Social Studies, an American Library Association Notable Book, a Booklist Editors' Choice, an American Bookseller Pick of the Lists, a Boston Globe-Horn Book Honor Book, and an IRA Teachers' Choice. In this welcome reissue, celebrated author and illustrator Diane Stanley and her husband, Peter Vennema, paint an impressive portrait of the remarkable queen who loved her people so dearly and ruled them so well.

In this spirited new version of a classic fairy tale, we meet a determined heroine with a mind of her own. Can she help it if everyone she invites over is too bossy or too boring or too snobby or too rough? What Goldie desperately wants is a friend she can love with all her heart. And one day, she finds one who's just right.

A small boy experiences, along with the animals of meadow and forest, the sights, smells, and sounds of a rainy summer day.

By the author and illustrator of This Train, a Parents' Choice Gold Medal Book Anchors aweigh! From a boat in a bottle to a supertanker cargo ship, from a boat that can break through ice to one that can sail under it -- This Boat, with its simple text and lush pictures, celebrates all kinds of boats, and ferries the youngest of readers toward a smooth docking. As a bonus, full-color endpapers feature captioned renderings of marine vessels from around the world and through the ages, such as a Viking longboat and the SS Titanic.
