Libro

Reception and authentication of knowledge, Evidence in the Age of the New Sciences is the first to examine the problem of evidence at this pivotal moment in European intellectual history. What constituted evidence—and for whom? Where might it be found? How

Read Online

Libro

Should it be collected and organized? What is the relationship between evidence and proof? These are crucial questions, for what constitutes evidence determines how people interrogate the world and the kind of arguments they make about it. In this important new
