Once upon a time an Indian writer named Amitav Ghosh set out an Indian slave, name unknown, who some seven hundred years before had traveled to the Middle East. The journey took him to a small village in Egypt, where medieval customs coexist with twentieth-century desires and discontents. But even as Ghosh sought to re-create the life of his Indian predecessor, he found himself immersed in those of his modern Egyptian neighbors. Combining shrewd observations with painstaking historical research, Ghosh serves up skeptics and holy men, merchants and sorcerers. Some of these figures are real, some only imagined, but all emerge as vividly as the characters in a great novel. *In an Antique Land* is an inspired work that transcends genres as deftly as it does eras, weaving an entrancing and intoxicating spell.

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

About 1900 abstracts of monographs and articles. Some foreign literature is included. Entries are arranged alphabetically by authors under topics. Author, title, subject, and geographic location indexes.
