Most people think
of the Oxford
English Dictionary
(OED) as a
distinctly British
product. Begun in
England 150 years
ago, it took more
than 60 years to

Dictionary and
when it was finally
finished in 1928,
the British prime
minister heralded it
as a 'national
treasure'. It
maintained this
image throughout
the twentieth
century, and in
2006 the English
public voted it an
'Icon of England',

alongside Marmite,
Buckingham Palace
and the bowler hat.

However, this book
shows that the

dictionary is not as
'British' as we all
thought. The

linguist and
lexicographer,

Sarah Ogilvie,
combines her

insider knowledge
and experience

with impeccable
research to show
that the OED is in
fact an

international
product in both its
content and its
making. She
examines the
policies and
practices of the
various editors,
applies qualitative
and quantitative

Dictionary, and finds
new OED archival
materials in the
form of letters,
reports and proofs.
She demonstrates
that the OED, in its
use of readers from
all over the world
and its coverage of
World English, is in
fact a global text.
