Recent years in North America have seen a rapid development in the area of crime analysis and mapping using Geographic Information Systems (GIS) technology. In 1996, the US National Institute of Justice (NIJ) established the crime mapping research center (CMRC), to promote research, evaluation, development, and dissemination of GIS technology. The long-term goal is to develop a fully functional Crime Analysis System (CAS) with standardized data collection and reporting mechanisms, tools for spatial and temporal analysis, visualization of data and much more. Among the drawbacks of current crime analysis systems is their lack of tools for spatial analysis. For this reason, spatial analysts should research which current analysis techniques (or variations of such techniques) that have been already successfully applied to other areas (e.g., epidemiology, location-allocation analysis, etc.) can also be employed to the spatial analysis of crime data. This book presents a few of those cases.

"Pamela Morsi is a perennial favorite for a good reason... she writes the perfect feel-good read." - Susan Wiggs Meet Dorothy Jarrow: devotedly unsexy librarian Buttoned-up book lover DJ is all sensible shoes, drab skirts, and studious glasses. After an ill-advised spring-break-fueled fling left her mortified, she's committed to her prim and proper look. When she's hired by a rural library in middle-of-nowhere Kansas, she finally has the lifestyle to match--and she can't wait to get her admin on. But it's clear from day one that the small-town library is more interested in circulating rumors than books. DJ has to organize her unloved library, win over oddball employees and avoid her flamboyant landlady's attempts to set her up with the town pharmacist. Especially that last part--because it turns out handsome Scott Sanderson is her old vacation fling! She is not sure whether to be relieved or offended when he doesn't seem to recognize her. But with every meeting, DJ finds herself secretly wondering what it would be like to take off her glasses, unpin her bun and reveal the inner vixen she's been hiding from everyone--including herself.

As the architect of the Iranian Revolution of 1979, Ayatollah Khomeini remains one of the most inspirational and enigmatic figures of the twentieth century. The revolution placed Iran at the forefront of Middle East politics and the Islamic revival. Twenty years after his death, Khomeini is revered as a spiritual and political figurehead in Iran and in large swathes of the Islamic world, while in the West he is remembered by many as a dictator and the instigator of Islamist confrontation. Arshin Adib-Moghaddam brings together distinguished and emerging scholars in this comprehensive volume, which covers all aspects of Khomeini's life and critically examines Khomeini the politician, the philosopher, and the spiritual leader, while considering his legacy in Iran and further afield in other parts of the Islamic world and the West. Written by scholars from varying disciplines, the book will prove invaluable to students and general readers interested in the life and times of Khomeini and the politics that he inspired.

'De Bernieres is a singular, cherishable voice' Mail on Sunday From the master of historical fiction, this book follows an unforgettable family after the Second World War. But after his brother Archie's death, Daniel is keen for new perspectives. He first travels to Peshawar to bury Archie in the place he loved best, and then finds himself in Canada, avoiding his family and friends back in England. Daniel and Bertie's different experiences of war, although devastating, also bring with them the opportunity for the two to reconnect. If only they can find a way to move on from the past...

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.
