'A picture is said to be worth a thousand words. A picture can easily be worth two or three equations, and it is certainly more memorable. I can draw and use an Edgeworth box more quickly than I can write down its formulas. There is a vast amount of economics packed into the 58 diagrams and expert commentaries in this unique book. Take it with you to your favourite desert island. All you need is a sandy beach and a pointed stick.' - Robert Solow, Massachusetts Institute of Technology, US

This book highlights the important need for more efficient and environmentally sound combustion technologies that utilise renewable fuels to be continuously developed and adopted. The central theme here is two-fold: internal combustion engines and fuel solutions for combustion systems. Internal combustion engines remain as the main

propulsion system used for ground transportation, and the number of successful developments achieved in recent years is as varied as the new design concepts introduced. It is therefore timely that key advances in engine technologies are organised appropriately so that the fundamental processes, applications, insights and identification of future development can be consolidated. In the future and across the developed and emerging markets of the world, the range of fuels used will significantly increase as biofuels, new fossil fuel feedstock and processing methods, as well as variations in fuel standards continue to influence all combustion technologies used now and in coming streams. This presents a challenge requiring better understanding of how the fuel mix influences the combustion processes in various systems. The book allows extremes of the theme to be covered in a simple yet progressive way.

This title is the 26th volume containing the usual diverse range of major feature articles devoted to the design, development and service of the world's fighting ships.

collections of digital media under control now and for the future, whether it is on a Linux, Mac or Windows computer. While mainly concerned with techniques to organize your current digital photo collections, it covers other vital strategies for organizing archival scanned photos from old family photo albums, and getting collections of home office and business documents into easier to access groupings. Video and audio archiving options are also briefly touched on. Just like any guide to getting your household cleaned and organized, Archiving Secrets is sure to help you get your computer tidied up in such a way that will make it easier to locate vital files, and make it easier to move on to your next PC when it comes time to upgrade.

"Congratulations to George Balana for creating a unique tool which leverages the power of Mind Mapping(r) to assist in the retention of project management knowledge areas. Used in conjunction with the PMBOK Guide Fourth Edition(r), Xcelerate your PMP(r), serves as a valuable reference with an easy to follow and creative format." Herman Gonzalez, PMP - President, PMI-SOC Board of Directors "George Balana is a high-energy person, always striving for excellence in everything he does, very often going the extra mile in pursuing results. With a visible ability to think outside-the-box, George enhances the dynamics of any group he participates in." George Jucan, PMP - Director, PMI-

SOC Board of Directors, Lead Contributor PMBOK(r) Guide Fourth Edition, Project Manager Competency Development Framework - Second Edition and Government Extension to the PMBOK(r) Guide - Third Edition. "I worked with George on different volunteering initiatives. George is very enthusiastic, fast learner, eager to deliver results and fun to work with. George delivers high quality results, while keeping time constraints in mind." Felix Moshkovich, PMP, CMC, PMI-SOC - Director Professional Development, PMI-SOC Board of Directors "I had first hand experience using this book during my PMP preparation and I passed in my first attempt. The mind maps concept is a powerful and fast track tool in the learning process and they are used on this book in a way that helps you assimilate the PMBOK processes. You will certainly find this book helpful in your PMP preparation." Fortunato Couto, PMP "Getting your Project Management Professional (PMP) designation is an investment in both yourself and your career. George Balana and his teachings allowed me to pass my PMP Exam on my first attempt. His PMBOK MindMapping Guide was useful for prepping for the exam. Long after the exam, it still provides a quick reference guide to rekindle acquired knowledge (@RLavigne42)." - Robert La

Book #1 Life's A Cappella Book #2 Our A Cappella (coming April 2014)
Mature Content Warning Recommended for ages 17+ due to language and sexual content. I want to tell you how great my life was. How I lived without regrets. With constant laughter. Without any tears. I want to tell you how I lived each moment to the fullest. How each breath I took was fresh and full of life. With eagerness. Without any fear. I want to tell you all of that, but then my story would be masked with lies and not worth telling. My life didn't start until I left my past. And I left everything... My mother, my friends, my name. My new name, the name everyone knows me by is Erin Lewis. Four years after finding the courage to leave her hometown in Alabama, Erin is finally happy with where her life has led her. Not only is she secure in her environment, but the relationships she has formed center her, making her forget how damaged she once was. Before she can fully settle into her new life, her past crashes into her present, unraveling a set of events that destroy the very foundation she has built her new life on.

The highly successful course for ambitious Cambridge FCE candidates.
