In his essential writing guide, *This Year You Write Your Novel*, Walter Mosley supplied aspiring writers with the basic tools to write a novel in one year. In this complementary follow up, Mosley guides the writer through the elements of not just any fiction writing, but the kind of writing that transcends convention and truly stands out. How does one approach the genius of writers like Melville, Dickens, or Twain? In *The Elements of Fiction Writing*, Walter Mosley contemplates the answer. In a series of instructive and conversational chapters, Mosley demonstrates how to master fiction's most essential elements: character and character development, plot and story, voice and narrative, context and description, and more. The result is a vivid depiction of the writing process, from the blank page to the first draft to rewriting, and rewriting again. Throughout, *The Elements of Fiction Writing* is enriched by brilliant demonstrative examples that Mosley himself has written here for the first time. Inspiring, accessible, and told in a voice both trustworthy and wise, *The Elements of Fiction writing* will intrigue and encourage writers and readers alike.

A decade after the Soviet Union and the People's Republic of China established their formidable alliance in 1950, escalating public disagreements between them broke the international communist movement apart. In *The Sino-Soviet Split*, Lorenz Lüthi tells the story of this rupture, which became one of the defining events of the Cold War. Identifying the primary role of disputes over Marxist-Leninist ideology, Lüthi traces their devastating impact in sowing conflict between the two nations in the areas of economic development, party relations, and foreign policy. The source of this estrangement was Mao Zedong's ideological radicalization at a time when Soviet leaders, mainly Nikita Khrushchev, became committed to

more pragmatic domestic and foreign policies. Using a wide array of archival and documentary sources from three continents, Lüthi presents a richly detailed account of Sino-Soviet political relations in the 1950s and 1960s. He explores how Sino-Soviet relations were linked to Chinese domestic politics and to Mao's struggles with internal political rivals. Furthermore, Lüthi argues, the Sino-Soviet split had far-reaching consequences for the socialist camp and its connections to the nonaligned movement, the global Cold War, and the Vietnam War. The Sino-Soviet Split provides a meticulous and cogent analysis of a major political fallout between two global powers, opening new areas of research for anyone interested in the history of international relations in the socialist world.
