One of a series of three resource guides concerned with communication, control, and computer access for the disabled or the elderly, the book focuses on hardware and software. The guide's 13 chapters each cover products with the same primary function. Cross reference indexes allow access to listings of products by function, input/output feature, and computer model. Switches are listed separately by input/output features. Typically provided for each product are usually an illustration, the product name, vendor, size, weight, power source, connector type, cost, and a description. Part I, "Computer Adaptations," presents the following types of items: modifications for standard keyboards; alternate inputs usable with all software; input devices usable with only some software; input adapters for computers; alternate display systems usable with all software; Braille printers and tactile display components; speech synthesizers; and other software and hardware adaptations. Part II, "Application Software for Special Ed and Rehab," includes software for administration and management; assessment; education, training, and therapy; recreation; and personal tools or aids. Appendixes include a list of additional sources of information, a glossary, addresses of manufacturers listed with their products, and an alphabetical listing of all products in the 3-book series. (DB)

"At the request of FEMA, the National Park Service Cultural Resources GIS Facility created a strategy to help FEMA meet its NHPA (National Historic Preservation Act) obligations focusing on New Orleans, LA. Combining GPS and GIS tools, CRGIS constructed a methodology to identify and evaluate all potentially affected properties. Additionally it provided a means for historic preservationists to determine the historic significance of individual resources through GIS. CRGIS incorporated its draft Federal agency-wide cultural resource spatial data standards, allowing the GIS to serve additionally as a management tool, sharing data among all ... involved in the recovery"--Page v.

In the tradition of *The Good Mother* and *The Deep End of the Ocean*, Anne D. LeClaire delivers a heartbreaking – and breathtaking – novel of two very different but equally loving mothers who face the most painful of losses and then find the courage not only to go on but to find meaning and hope in their lives. Rose Nelson is a middle-aged woman with a broken past, a sorrow from which she cannot recover. Secretly guilty about her role in her teenaged son's death five years ago, she has sealed herself off from life, enveloped by a grief that has slowly eaten away at her relationship with her husband. Against her will, Rose is drawn into the world she has avoided when Opal Gates and her five-year-old son, Zack, move in next door. Determined to start an independent life for herself, twenty-year-old Opal has left her family and the father of her son in North Carolina. But when she quickly begins an affair with Tyrone Miller, a part-time mechanic and local musician, Opal unwittingly breaks the tacit rules of both her family and her new hometown. Initially, Rose cannot bear the sight of Opal and her son. But later when Zack is injured, she instinctively lies to protect Opal from a single mistake that changes the lives of everyone involved. Faced with a custody suit brought by Zack's father and her own parents, Opal faces a trial in which each choice she has made will be used as ammunition in the battle to take Zack away from her. Confronting such devastating loss and the questions it poses are at the heart of *Entering Normal*. How does one go on after great tragedy? What is a family? What sacrifices must a mother be willing to make for her child? And how can a good mother sometimes make bad choices? *Entering*

Normal is a story of family, a novel about courage, loss, risk, and betrayal. It is a story that goes to the heart of love.

Volume 3: Managing the Ecosystem focuses on those ecosystems in which human intervention has been or continues to be predominant, specifically within cities and rural areas.

Foundations in Accountancy (FIA) awards are entry-level, core-skill focused qualifications from ACCA. They provide flexible options for students and employers, and as official ACCA Approved Learning Provider - Content, BPP Learning Media's study materials are tailored to the exams students will take.

This book provides students with a clear and thorough presentation of the theory and application of structural analysis as it applies to trusses, beams, and frames. Emphases are placed on teaching readers to both model and analyze a structure. A hallmark of the book, Procedures for Analysis, has been retained in this edition to provide learners with a logical, orderly method to follow when applying theory. Chapter topics include types of structures and loads, analysis of statically determinate structures, analysis of statically determinate trusses, internal loadings developed in structural members, cables and arches, influence lines for statically determinate structures, approximate analysis of statically indeterminate structures, deflections, analysis of statically indeterminate structures by the force method, displacement method of analysis: slope-deflection equations, displacement method of analysis: moment distribution, analysis of beams and frames consisting of nonprismatic members, truss analysis using the stiffness method, beam analysis using the stiffness method, and plane frame analysis using the stiffness method. For individuals planning for a career as structural engineers.
