Interactive multimedia tools are an extension of Kevin Revell's distinct author voice and help students develop critical problem solving skills and master foundational chemistry concepts necessary for success in chemistry.

Derived from the classic text originated by Lubert Stryer and

Online Library Sapling

continued by John
Tymoczko and Jeremy
Berg, *Biochemistry: A
Short Course* focuses on
the major topics taught
in a one-semester
biochemistry course.

With its brief chapters
and relevant examples,
this thoroughly updated
new edition helps
students see the
connections between the
biochemistry they are

Online Library Sapling

Learning and their own lives. Now with SaplingPlus, Learning objectives and active learning questions.

SaplingPlus is an online solution that combines an e-book of the text, Berg's powerful multimedia resources, and Sapling 's robust biochemistry problem library.

Online Library Sapling

Authoritative, thorough,
and engaging, *Life: The
Science of Biology*

achieves an optimal
balance of scholarship
and teachability, never
losing sight of either the
science or the student.

The first introductory
text to present biological
concepts through the
research that revealed
them, *Life* covers the
full range of topics with

Online Library

Sapling

an integrated experimental focus that flows naturally from the narrative. This approach helps to bring the drama of classic and cutting-edge research to the classroom - but always in the context of reinforcing core ideas and the innovative scientific thinking behind them. Students will experience biology

Online Library Sapling

not just as a litany of facts or a highlight reel of experiments, but as a rich, coherent discipline.

For four decades, this extraordinary textbook played an pivotal role in the way biochemistry is taught, offering exceptionally clear writing, innovative graphics, coverage of the latest research
