New York Times bestselling author Patti Callahan Henry delivers a novel that explores the power of lasting love through the connected stories of two women from opposite sides of the sea. Twenty-seven-year-old Kara Larson is bogged down in the stress of planning her elaborate wedding to a professional golfer. Still, to fulfill the requirements of the Palmetto Pointe Junior Society, she makes time in her busy schedule to visit an elderly woman at a nursing home facility. Soon she finds herself mesmerized by the singsong Irish lilt of ninety-six-year-old Maeve Mahoney as Maeve recounts the rambling story of her first love back in Ireland.

Or, Kara begins to wonder, is she really retelling an ancient tale of myth and legend? Waiting for the story to unfold in bits and pieces, and trying to discern the underlying truth, Kara is drawn in—and driven to remember her own first love: childhood neighbor Jack Sullivan. Gradually she realizes that before she embarks on her new life, she must find out how her own story—with Jack—will end. “ About all the things that make us worthy as human beings—integrity, honesty, and living the life you are meant to live...A triumph! ” —Dorothea Benton Frank “ A passionate, unforgettable novel of self-discovery, regret, and the illuminating power of love. ” —Mary Alice Monroe

A study of Peruvian Cinema and the role of criticism in forming a national cinematic vision

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

This textbook covers all the topics teachers want in an algebra curriculum. The curriculum thoroughly covers all traditional Algebra 1 topics, including work with rational and radical expressions. Optional coverage of proof is also included.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For non-electrical engineering majors taking the introduction to electrical engineering course. Electrical Engineering: Concepts and Applications is the result of a multi-disciplinary effort at Michigan Technological University to create a new curriculum that is attractive, motivational, and relevant to students by creating many application-based problems; and provide the optimal level of both range and depth of coverage of EE topics in a curriculum package.
