dispersed phase of a solution. The solvent is the medium phase of a solution that disperses solute particles. Quantity

~~9 Differences
between Solute and
Solvent (Solute vs
Solvent)~~

The key difference between solvent and solute is that the

Get Free Solvent Vs

Solute is the one to be dissolved while, the solvent is responsible for dissolving it. A solution is a homogeneous mixture of two or more substances. We name it a homogenous mixture because the composition is uniform throughout the solution.
