Sugar production was the direct cause of slavery. And "Sugar plantations stand between the old agricultural world of the feudal period and the wage and factory labor of the industrial age," per the book. Sugar set the world of the 18th century in motion, as, almost like a modern-day addictive drug, sugar was an instant hit with whoever tasted it.

Sugar is made by boiling the juice from crushed sugar cane, straining it, then boiling it and straining it over and over until it reaches the temperature that causes it to form crystals when cooled. Cane sugar can be traced back to the island now called New Guinea, just north of Australia. From there it spread to many other areas of the world.
