Abandoned. Hunted. Out of control. Gethyon Rees had always felt at odds with the universe, and hoped for an escape among the stars. But discovering he has the ability to cross time and space with just a thought brings more problems than it solves: a deadly bounty hunter who can follow him anywhere, the unwelcome return of Tarquin Secker--the mother who abandoned him--and an ancient darkness that seeks him and all those with his talents. When an unforgivable act sets him on the run, it'll take more than his unearthly powers to save his skin and the lives of those he cares about. It'll take a sacrifice he never expected to have to make. A science fiction adventure novel previously published by BURST (Champagne Books), and part of the Travellers Universe. A 2014 SFR Galaxy Award Winner for Most Awesome Psychic Talent and a 2015 EPIC eBook Awards finalist in the Science Fiction category. Also now includes the SF short story The Bones of the Sea.

A demon waiting to die... An outcast reviled for his discolored skin and rumors of black magic, Keirlan de Corizi sees no hope for redemption. Imprisoned beneath the palace that was once his home, the legendary 'Blue Demon of Adalucien' waits for death to finally free him of his curse. But salvation comes in an unexpected guise. A woman determined to save him. Able to cross space and time with a wave of her hand, Tarquin Secker has spent eternity on a hopeless quest. Drawn by a compulsion she can't explain, she risks her apparent immortality to save Keir, and offers him sanctuary on her home-world, Lyagnius. But Quin has secrets of her own. When Keir mistakenly unleashes the dormant alien powers within him and earns exile from Lyagnius, Quin chooses to stand by him. Can he master his newfound abilities in time to save Quin from the darkness that seeks to possess her? Book One of the Redemption series and part of the Travellers Universe. Previously released by Lyrical Press Inc. 7th May 2012 SFR Galaxy Award for SciFi Romance for Best May-December Romance (2012), Aspen Gold Readers Choice Award 3rd place (2013), Readers' Favorite International Book Award finalist (2012), Kindle Book Review Awards Nominee for Best SciFi/Fantasy (2013)

A seductive tyrant. A lost hero. And a galaxy about to fall... It's been a year in paradise for Keir and Quin, but now the idyll is over. After Quin falls sick, they return to the hidden sanctuary of Lyagnius, and what she learns there will not only change their lives, but set them on a journey that could separate them forever. When Keir falls victim to a ruthless Nercaandi Empress bent on conquering the galaxy with her cybernetic army, it will take all Quin's diminishing powers and the help of her son to find him. But what waits for her aboard the tyrant's ship will test her strength and the limits of their love, and put everything she cares about at risk. Including Keir. With the galaxy itself about to fall, will she be able to save him? Book Two of the Redemption series and part of the Travellers Universe.

In a city where Dark Technologies Inc. now runs the show, Kadie Williams has more immediate concerns than the fall of Blaze, their guardian superhero. Almost every morning for the last few months she's woken up with cuts and bruises on her body, and no idea how she got them. There are no nightmares. No evidence that she sleepwalks, or any sign of a break in. And nothing to tell her who's been cleaning up after her. As just one of thousands of civilians conscripted to slave away in the labs of Professor Dark, she knew there'd be trouble ahead. But she

never expected it to be so bad, or so personal. Desperate for answers, Kadie looks to the new defender of the night, the only person who can hinder the total domination of Professor Dark-Nocturnelle. The mysterious vigilante superhero came from nowhere with her cybernetic sidekick Shadow, set on putting an end to the brutality of Dark's regime. But as his laboratories work on a new secret super-weapon, Nocturnelle and Shadow may not be enough to save Nephopolis...or to save Kadie either.

An attempted assassination left Princess Shalira blind as a child and, now that she's of marriageable age, her prospects are not good because of her disability. She's resigned herself to an arranged marriage rather than face life under the thumb of her cold stepmother. But then she meets Mike Varone, a Sectors Special Forces officer sent to Mahjundar by the intergalactic government to retrieve a ship lost in her planet's mountains. After Mike saves Shalira from another assassination attempt, she arranges for him to escort her across the planet to her future husband. She's already falling hard for the deadly offworlder and knows she should deny herself the temptation he represents, but taking Mike along to protect her is the only way she'll live long enough to escape her ruthless stepmother. Mike, for his part, resists his growing attraction to the princess; he has a mission on this planet and rescuing the vulnerable but brave princess isn't it. No matter how much he wishes it could be. But what should have been an easy trek through Mahjundar's peaceful lands swiftly turns into an ambush with danger around every turn. Shalira's marriage begins to seem less like an arranged union and more like yet another planned assassination. The more they work together to survive, the harder it becomes to stop themselves from falling in love. Caught in a race against time, can they escape the hostile forces hunting them and make it off the planet? Can there be a future for a simple soldier and an intergalactic princess?

A young woman who is hiding a deadly past and an even deadlier paranormal talent, Captain Tasha Sebastian meets her match when she receives a dangerous visitor on board her spaceship, a man who seems to know all too much about her and is hiding a few secrets of his own. Original.

Convicted of treason and sentenced to be executed, Bo Barron is the last person who should be infiltrating a Sub-socia weapons auction. But when her father is kidnapped and the ransom demand is the schematics to an experimental weapon, she has no choice but to go under cover with her uncle to get it. Nobody counted on former-government-agent-turned-holo-feature-hero Blade Devon's infatuation with her. A botched assassination under the guise of a bar brawl leaves Bo blind and Blade wondering if there isn't more to this job than he was led to believe. Never able to resist playing the hero, Blade tends her injuries and delves deeper into the intrigue only to find this mission isn't about a weapon at all. It's about two Sovrans' maneuvering for control, with Bo and Blade as their pawns. All Bo and Blade have to do is figure out how to survive the game they didn't know they were playing. The catch is, no one and nothing are what they seem...
