The Data Science Handbook

The Data Science Handbook is a compilation of in-depth interviews with 25 remarkable data scientists, where they share their insights, stories, and advice. These 25 data scientists hail from a wide selection of backgrounds, disciplines, and industries. Some of them, like DJ Patil and Hilary Mason, were part of the trailblazing wave of data scientists who catapulted the field into national attention.

Data science is concerned with turning this data into actionable knowledge through the application of cutting-edge techniques in statistics and computer science. Global demand for combined statistical and computing expertise outstrips supply, with evidence-based predictions of a major shortage in this area for at least the next 10 years.
