The Name of the Star takes place in London, in the midst of a Jack the Ripper copycat string of murders. Rory is new to London and is thrown into the action right away. She's connected to the crimes in a special way and that tie is what makes this novel. There were times this novel had me creeped out.

Sirius, also known as the Dog Star, is the brightest star in the night sky. Its name comes from the Greek word for "scorching." Many early cultures had names for it, and it had special meanings in terms of rituals and the deities they saw in the sky. It's actually a double star system, with a very bright primary and a dimmer secondary star.
