Scripting on top of WMI implies the use of WMI COM objects. A script uses two types of objects: the objects obtained from the various class definitions located in the CIM repository (instances) and

Bookmark File PDF

the objects exposed by the WMI scripting API (COM objects). The WMI scripting API is a collection of COM objects usable from most programming languages and scripting languages. In

Bookmark File PDF

order to use the WMI COM objects they must first be instantiated.
