These engines were painted in dark charcoal. Even though they were marked OMC Cobra, these engines were in fact produced by Volvo. Their serial numbers started out with a two-digit number followed by a letter string which

# Download File PDF Volvo

indicated the model and year of production. So for example, in an engine with the serial number 4.3GSPNCA the 4.3 tells us the displacement. The letter G identifies the engine as a General Motors block.
