Air Top Heater Fault Codes  
If you have an Air Top  
heater or a water heater  
from the Thermo 90 range,  
then the following guide  
should help you to diagnose  
any faults. If your heater  
has a fault, the green  
indicator light will flash  
in a sequence unique to the  
heater fault.

a combination timer, an error code output will appear on the display of the timer after a fault occurs.

NOTE. The error code is output if the heater is fitted with a control element after an error has occurred by the switch-on indicator/error code indicator flashing. After 5 seconds of fast flashing, the error code will be output by a sequence of long flash pulses, the number of flashes is shown in the table below (for example F04 - 4 ...
