American Patrol - Frank White Meacham / Piano Sheet Music 1885年作曲 American Patrol アメリカン・パトロール Frank White Meacham フランク・ホワイト・ミーチャム 1856年5月31日 ~ 1909年12月22日

Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. Classic Keys explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

(Yamaha Products). Sound reinforcement is the use of audio amplification systems. This book is the first and only book of its kind to cover all aspects of designing and using such systems for public address and musical performance. The book features information on both the audio theory involved and the practical applications of that theory, explaining everything from microphones to loudspeakers. This revised edition features almost 40 new pages and is even easier to follow with the addition of an index and a simplified page and chapter numbering system. New topics covered include: MIDI, Synchronization, and an Appendix on Logarithms. 416 Pages.

In this volume, which contains six suites and seven supplementary pieces for intermediate to advanced level pianists, Judith Schneider has provided detailed biographical and historical information about the pieces, as well as suggestions to achieve a proper interpretation of these works. Bach's table of ornaments is also discussed. This volume beautifully prepares students to perform Bach's more advanced English Suites.

Raindrops on roses and whiskers on kittens, Bright copper kettles and warm woolen mittens... "My Favorite Things," Rodgers and Hammerstein's beloved song from The Sound of Music, has captured the hearts of children young and old for generations. Its magical images -- cream-colored ponies and girls in white dresses -- paired with its lilting rhyme, never fail to delight. Now acclaimed illustrator Renee Graef gives this classic song new meaning with heartwarming full-color illustrations Of a loving family and their life throughout the course of a year. Complete with the score of the song, My Favorite Things is both a wonderful book for families to share and a gorgeous keepsake to cherish.

Op. 105 is a delightful collection of 'melodious and brilliant' character studies reminiscent of Mendelssohn's Songs without Words. Although written to develop the flexibility of the hands, they also display beautiful lyric qualities. The pieces may be used as a sequel to Burgmüller's 18 Characteristic Studies, Op. 109.
