This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. &#x26;Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. &#x26;Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The l-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

Every year, an estimated 1.7 million Americans sustain brain injury. Long-term disabilities impact nearly half of moderate brain injury survivors and nearly 50,000 of these cases result in death. Brain Neurotrauma: Molecular, Neuropsychological, and Rehabilitation Aspects provides a comprehensive and up-to-date account on the latest developments in the area of neurotrauma, including brain injury pathophysiology, biomarker research, experimental models of CNS injury, diagnostic methods, and neurotherapeutic interventions as well as neurorehabilitation strategies in the field of neurotraum research. The book includes several sections on neurotrauma mechanisms, biomarker discovery, neurocognitive/neurobehavioral deficits, and neurorehabilitation and treatment approaches. It also contains a section devoted to models of mild CNS injury, including blast and sport-related injuries. Over the last decade, the field of neurotrauma has witnessed significant advances, especially at the molecular, cellular, and behavioral levels. This progress is largely due to the introduction of novel techniques, as well as the development of new animal models of central nervous system (CNS) injury. This book, with its diverse coherent content, gives you insight into the diverse and heterogeneous aspects of CNS pathology and/or rehabilitation needs.

Advanced Practice in Critical Care provides experiencedcritical care nurses with a clear and distinct evidence base forcontemporary critical care practice. Central to the book is theapplication of research and evidence to practice and therefore,case studies and key critical care clinical situations are usedthroughout to guide the reader through the patient care trajectory. Each chapter introduces an initial patient scenario and as thechapter progresses, the patient scenario develops with thetheoretical perspectives and application. In this way, it isevident how multi-organ dysfunction develops, impacting upon andinfluencing other body systems, demonstrating the multi-organimpact that is often experienced by the critically ill patient. Inthis way, consequences of critical illness such as acute renalfailure, haemostatic failure and liver dysfunction are explored.Throughout the text, key research findings and critical caretreatment strategies are referred to, applied and evaluated in thecontext of the given patient case study. Advanced assessmenttechniques are explained and the underlying pathophysiology isdiscussed in depth. Advanced Practice in Critical Care is anessential resource for experienced practitioners within criticalcare whom primarily care for patients requiring high dependency orintensive care.

Written by two of Europe’s leading robotics experts, this book provides the tools for a unified approach to the modelling of robotic manipulators, whatever their mechanical structure. No other publication covers the three fundamental issues of robotics: modelling, identification and control. It covers the development of various mathematical models required for the control and simulation of robots. · World class authority · Unique range of coverage not available in any other book · Provides a complete course on robotic control at an undergraduate and graduate level

You definitely want to have a good guide on everything you need to succeed in the trucking business industry. This book will keep you out of trouble in all facets trucking business. The trucking industry has the luxury of being able to recover from small miscues, but not many of books out there go the the length this book goes to discuss matters Trucking. In this book you’ll learn.! · Define The Role Of The Broker And Agent · Here's How The Industry Works · Why Get Operating Authority · Financial · Shipping Own Product · More Home Time · Region And Customers · The Money In Trucking · Abide By The Industry's Standards · Satisfy The Steps To Become An Agent · Understand The Industry's Work Environment · Familiarize Yourself With Industry Terms · Build The Steps To Become A Broker · Consider The Big Picture · What You Can Expect · Mechanical Problems · Regulatory Problems · Financial Problems · Communication Problems · What To Spend (Or Not Spend) Money On · Good Investments · Bad Investments · Step Nine Discover Self Pace & Time Management Success About the Expert Bruce Stimson started his factoring career in 2001, when he founded QLFS, which eventually became the Invoice Trucking Group. Mr. Stimson led the firm through its initial growth and established it as a leading provider to startups and small companies in the New England region. After QLFS, Mr. Stimson launched Trucking Capital LLC to provide services in the USA, Canada and Australia. Under his leadership, Trucking Capital LLC has expanded to offer a number of business finance products and can help companies in most industries. Trucking Capital LLC is one of the few companies that offers micro-factoring (also called small-ticket factoring), which helps early-stage companies with limited revenues. Small business factoring has been ignored by larger factoring firms and banks, establishing Mr. Terry as a pioneer in this market. Before starting his career in finance, Mr. Stimson held several management positions in operations and marketing in the telecommunications industry for eight years. He earned a Master’s Degree in Finance with a concentration in banking. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
